Hire

This kit measures gas or liquid flows. It has an interchangeable float and tube VA metering elements and covers a wide range of flows. The glass flow tubes have a 1-10 linear scale running up the side. There are also 9 different flow sizes and weights.

Kit Contents:

5 borosilicate glass flow tubes
Bench Stand and Nozzle connectors

Comprehensive range of graphs for measurement of air and water flow.

Stainless Steel connections
Duraluminium and stainless steel floats, 9-of, for alternative flow ranges.

Ranges: 10 air ranges, overlapping, monitoring 0.06- 100 l/min
6 water ranges, overlapping and monitoring 0.01 – 4.4 l/min.

Accuracy: $\pm 1.25\%$ FSD

Frame: Platon GTV with Stainless Steel end blocks, Viton Seals and bench stand.

Valve: Stainless steel needle valve cartridge (3-off)

Hire Cost (kit):
£100 per/week

Any individual range can be calibrated to your requirements, traceable to National Standards. (Cost £50)
